企业简介 Company Profile

广东彬茂新型建筑材料有限公司，是一家专注于高品质板材研发、生产与销售的综合型企业。公司拥有6个大型现代化生产基地，配备国际先进的生产设备和智能化管理系统，日产能可达200000m²，产品涵盖环保“护墙板、户外铝合金地板、木塑地板”等多个品类，广泛应用于室内装饰、家具制造等领域。

我们始终坚持“绿色环保、品质至上”的理念，所有产品均符合E0级环保标准，并通过ISO9001质量管理体系认证等多项国际权威认证。

公司拥有专业的技术研发团队，不断创新工艺，致力于为客户提供高性能、高品质、环保健康的各种室内外装饰材料。凭借稳定的产品质量、完善的售后服务和高效的供应链体系，与国内外众多知名企业建立长期合作关系，产品远销全球多个国家和地区。

未来，我们将继续秉持“匠心制造、合作共赢”的宗旨，为客户创造更大价值，推动行业可持续发展。

Guangdong Binmao New Building Materials Co., Ltd. is a comprehensive enterprise specializing in the research, development, production, and sales of high-quality panel products. The company operates six large-scale modern manufacturing bases equipped with internationally advanced production facilities and intelligent management systems, achieving a daily production capacity of up to 200,000 square meters. Its product portfolio includes eco-friendly "wall panels, outdoor aluminum alloy flooring, wood-plastic composite flooring," and other categories, widely applied in interior decoration, furniture manufacturing, and other fields.

Adhering to the core philosophy of "green environmental protection and quality excellence," all products comply with E0-grade environmental standards and have obtained international certifications such as the ISO9001 quality management system.

The company boasts a professional R&D team dedicated to innovating manufacturing processes, committed to delivering high-performance, high-quality, eco-friendly, and healthy interior and exterior decoration materials. Backed by stable product quality, comprehensive after-sales services, and an efficient supply chain system, Binmao has established long-term partnerships with numerous renowned domestic and international enterprises, exporting its products to multiple countries and regions worldwide.

Looking ahead, we will continue to uphold the principle of "Artisanal Manufacturing, Win-Win Cooperation," striving to create greater value for clients and driving the sustainable development of the industry.

企业优势 Competitive Advantage

·我们拥有六个最先进的生产基地，严格遵循ISO质量管理体系，坚持优良的品质标准。从原材料的选材到工艺制造，每个环节做到精心把控，以确保精度和卓越性。企业通过以人为本，诚信务实的管理理念，敢于创新，追求卓越，不断优化改良，致力于每一件产品都符合国际使用标准！无论是大规模订单，还是个性化定制，我们都能确保按时保质保量交付！

- We own six state-of-the-art production bases, strictly adhere to the ISO quality management system, and maintain excellent quality standards.
- From raw material selection through the manufacturing process, every step is meticulously controlled to ensure precision and excellence.
- The company adheres to a people-oriented, integrity-based and pragmatic management philosophy, daring to innovate and pursuing excellence. Through continuous optimization and improvement, we are committed to ensuring that every product complies with international standards.
- Whether it's large-scale orders or personalized customization, we are committed to ensuring on-time delivery while maintaining quality and quantity guarantees!

6 个大型生产基地
Six Large-Scale Manufacturing Bases

·我们拥有六个最先进的生产基地，严格遵循ISO质量管理体系，坚持优良的品质标准。从原材料的选材到工艺制造，每个环节做到精心把控，以确保精度和卓越性。

•We own six state-of-the-art production bases, strictly adhere to the ISO quality management system, and maintain excellent quality standards. From raw material selection through the manufacturing process, every step is meticulously controlled to ensure precision and excellence.

20W m² 日产能
Daily Production Capacity of 200,000m²

·日产能20万平方米，在制造规模上处于行业领先地位，确保高效可靠的供应。

·无论是处理大规模订单还是紧急请求，我们都能迅速响应，保证及时交货，帮助客户保持市场领先地位。

•With a daily production capacity of 200,000m², we lead the industry in manufacturing scale, ensuring efficient and reliable supply.
•Whether handling large-scale orders or urgent requests, we respond swiftly to guarantee timely delivery—helping our customers stay ahead in the market.

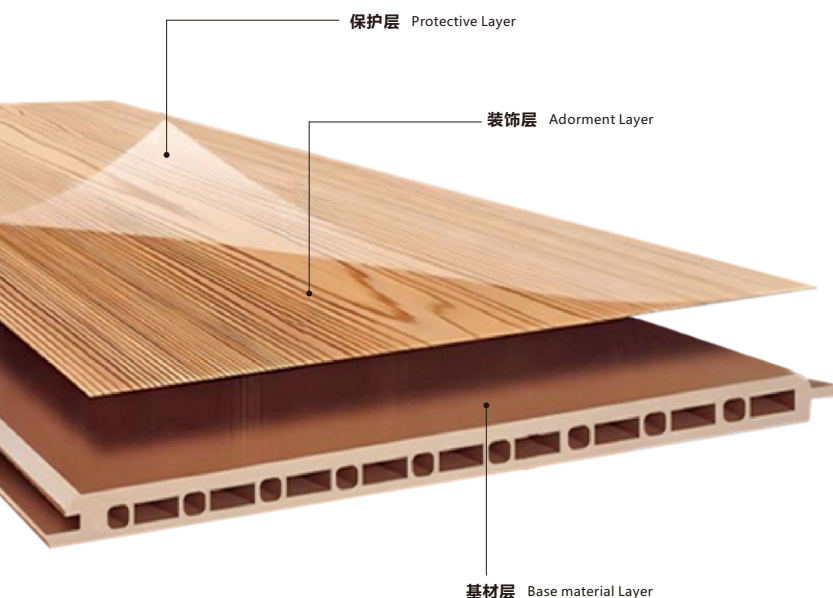

3W m² 厂房面积
30,000m² Factory Area

·我们30000平方米的先进设施集研发、生产和仓储于一体，为客户提供高效灵活的一站式解决方案。

·凭借广阔的空间和先进的设备，我们确保大规模生产，同时保持卓越的产品质量。

•Our 30,000m² state-of-the-art facility integrates R&D, production, and warehousing, providing efficient and flexible one-stop solutions for our customers.
•With expansive space and advanced equipment, we ensure large-scale production while maintaining exceptional product quality.

竹木纤维板 Bamboowood Fiberpanel

• 竹木纤维板是一种通过高温高压技术精制而成的新型建材，融合了竹子与木材的双重优势，具有多种优良特性。

Bamboowood fiberboard is a new type of building material refined through high-temperature and high-pressure technology, Combining the dual advantages of bamboo and wood, Has multiple excellent characteristics.

产品参数 Product Parameters

产品厚度 Product Thickness	8mm/9mm	产品宽度 Product Width	400mm/600mm
产品等级 Product Grade	优等级 Excellent Level	产品材质 Product Material	竹粉、木粉、钙粉、树脂 Bamboo Powder, Wood Powder, Calcium Powder, Resin
产品高度 Product Height	2440mm/2600mm/2800mm/3000mm 其余尺寸有量可定制 Other sizes can be customized in quantity		

· 高强度

High strength

· 耐磨、防水、防潮

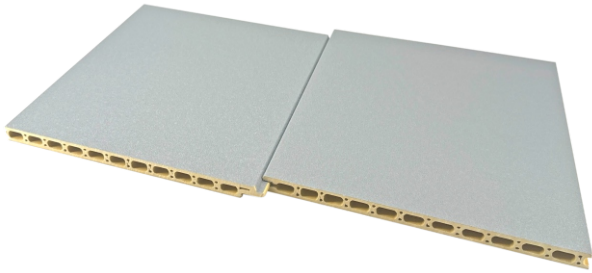

Wear resistant, Waterproof, and Moisture-proof

· 环保无污染

Environmentally friendly and pollution-free

蜂窝铝板 (墙板、吊顶)

Honeycomb Aluminum Panel (Wall panels, ceiling)

铝蜂窝板是一种复合材料，主要由两层高密度铝板和中间的铝蜂窝芯通过高温高压复合而成。这种结构赋予了铝蜂窝板优异的物理和机械性能：轻质、高强度、刚性好、耐腐蚀、隔热隔音、平整度高等优点。被广泛应用于建筑、交通、航空航天等领域。

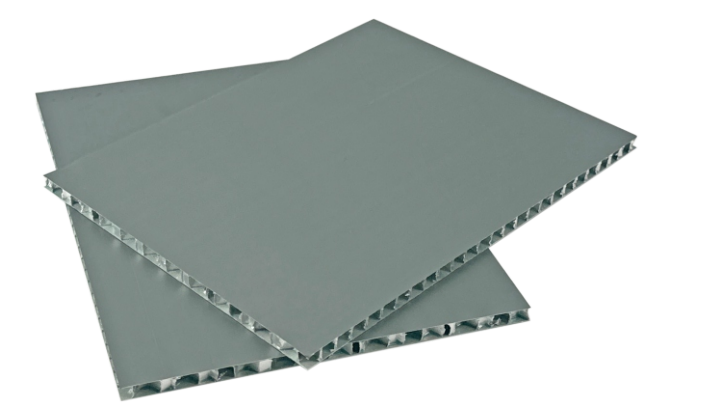

Aluminum honeycomb panel is a composite material primarily composed of two layers of high-density aluminum sheets and an aluminum honeycomb core bonded together through high temperature and high pressure. This structural design endows the material with exceptional physical and mechanical properties, including lightweight characteristics, high strength, excellent rigidity, corrosion resistance, thermal insulation, sound insulation capabilities, and superior surface flatness. It is widely utilized across multiple industries such as construction, transportation, and aerospace applications.

产品参数 Product Parameters

产品厚度 Product Thickness	7mm/9mm (吊顶 Ceiling) 9mm (墙板 Wall Panels)	产品宽度 Product Width	1220mm

SPC石晶墙板 SPC Stone Crystal Wall Panel

SPC石晶墙板是由石塑复合材料 (Stone Plastic Composite) 制成的一种新型建筑装饰材料。其主要成分是精选的天然大理石粉和高分子晶体材料 (也有说法是其主要成分为石灰粉即碳酸钙粉+聚氯乙烯PVC)，按照专利配方混合后，经过高温高压、挤出和复合等工艺，形成坚实的板材。

SPC stone crystal wall panels are a new type of architectural decoration material made of Stone Plastic Composite. Its main components are selected natural marble powder and polymer crystal materials (some say its main components are lime powder, namely calcium carbonate powder + polyvinyl chloride PVC). After mixing according to the patented formula, it is processed through high temperature and high pressure, extrusion and composite to form a solid plate.
